1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on January 12, 2006, Joseph Felber requested an extension of time for TWO MONTHS and authorized the Director to charge Deposit Account No. 50-2866 the required fee of \$210.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 1 and 4-7.

2. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the recited solenoid including a first core movable along the driving force-transmitting member while holding the common valve member and a second core rigidly fixed to the driving force-transmitting member and a solenoid coil for causing attraction of the first and second cores to each other or releasing of the first and second cores from each other, and wherein the spring is interposed between the first and second cores (claim 2), or the driving force-transmitting member comprises a shaft, and a seal member is provided between the shaft and the common valve element (claim 3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
